Ármin Telegdi

FRONTEND DEVELOPER

Profile

I'm a motivated and committed web developer. I love to learn, and I constantly keep improving my skills to solve more and more complex tasks with success. I pay attention to my tasks and do my duties with responsibility and precision. I'm also broad minded and think to love in systems. In my free time I read a lot or go out for a hike.

Work experience & education

Mentored course @ personal sessions

NOVEMBER 2021 – PRESENT

Comprehensive course with the developer of Kinsta Inc. about general web development practices and real-life frontend dev techniques.

Full stack web development course @ Academind - Udemy, online

OCTOBER 2021– PRESENT

I dealt in dept with web development basics and modern frontend tools, but learned about backend tools, version management, the use of modern build tools and package managers, design tools and a lot of other things as well. I'm actively running multiple own projects for fun and also to deepen my knowledge.

Production engineer @ Orange Cube Kft, Budapest

JANUARY 2021– DECEMBER 2021

I've designed domestic and business furniture / controlled their installation. I've done every task from measurements to design and production coordination. I've also controlled smaller construction groups on site.

Production engineer @ Ligno Art Kft, Budapest

OCTOBER 2017– NOVEMBER 2020

I've designed premium furniture for demanding clients. I've done a comprehensive list of duties from measurements, client contacting to controlling production and ordering required materials.

Timber Industry Engineer BSc @ University of West Hungary, Sopron

SEPTEMBER 2013– JANUARY 2017
